Title of the paper

Maria Starodubtseva, ……………………………………………………………..

2024-11-13

Report Requirements:

The report should be comprehensive and include the following sections:

1. Explanation of Methodology: Describe the adopted empirical strategy and the modeling choices made.
2. Results Presentation: Present the estimations and findings.
3. Interpretation: Interpret the results and discuss the insights obtained.
4. Managerial Implications and Conclusions: Discuss how the findings can inform the decision-making process.

Introduction

Dataset Description

Methodology

Results

Interpretation

Conclusions

Formulas:

$$\text{logit}(E(\text{breast})) = \beta_0 + \beta_1\text{pregnancy} + \beta_2\text{howfed} + \beta_3\text{howfedfr}$$
$$+ \beta_4\text{partner} + \beta_5\text{age} + \beta_6\text{educat} + \beta_7\text{ethnic} + \beta_8\text{smokenow} + \beta_9\text{smokebf}$$
